

NCOP Under-graduate Coaching Programme

One of the great successes of the NCOP programme has been pairing under-graduate coaches with 6th Form students from our partner schools. The coaches visit the students twice monthly in their schools and help them to set and achieve goals towards their chosen pathways.

The partnership of Minho from Goldsmiths University and Claire from Carshalton High School for Girls has been one of the best. Minho is a Fine Art student and Claire wants to study Art at university. Not only has Minho helped her to build her portfolio but he has taken her to gallery visits to expand the range of her knowledge and interests. Read their accounts of the partnership here:
