

HEI Practitioner CPD at Ravensbourne University London, September 2018

We began our year with our HEI colleagues focussing on areas that would inform and improve our collaborative practice for the coming year. The afternoon was led by Aimhigher London with a focus on how to engage Academics more in WP work and how to enhance the output of Student Ambassadors. We opened the training with a very informed and useful session from *Lorna Ellis at Carshalton Boys Sports College* on how best to engage today's learners.
